

# Colombia Birds 2024

These are photos I took on a trip with Rob Gilson and Fredy Montero of Fauna Ventures to three areas: Putamayo (Macoa 6 days), Minca (3 days), and Palomino (1 day). It was primarily a butterfly trip but we saw some good birds as well. My reference was *Field Guide to the Birds of Colombia, 2<sup>nd</sup> Edition* (2014) by McMulland and Donegan.

Speckled Chacalaca
