

## Peru Butterflies 2018

Butterfly photos were taken by Dennis Deck, Dan van den Broek (D), Barbara Clark (B), and Randy Countryman (R) during the 2018 Portland Audubon Peru trip (plus Dennis' 5 days on the Manu Road). Approximate photo identification was based primarily upon the websites *Butterflies of the Amazon and Andes* (Hoskins), *Neotropical Butterflies* (Garwood), *Butterfly Guides* (Garwood & Valesquez), *Butterflies of America!* (Warren), and *Caladyna*<sup>1</sup> (Gaele).
